Spay/Neuter grant project questions	
1	Describe and quantify, to the extent possible, the cat overpopulation problem in your community using your organization's data and any other meaningful estimates. If you are a former grantee, please include information on the status of previously funded communities and cat populations.
2	What experience does your organization have running spay/neuter projects?
3	Please describe any previous work done in this/ each of these community in the past?
4	How did you come to the estimate of unfixed cats? Please provide a response for each individual community you are applying for.
5	Describe your relationship with the First Nation government you are working with. Please provide a response for each individual community you are applying for.

6	Describe what community collaborations, if any, exist and how this grant will foster the creation or growth of those collaborations.
7	Please explain your implementation plan for executing and completing this project successfully within the timelines of the grant program.
8	What system do you have in place to ensure that you will complete the number of surgeries listed above? Please outline staff/volunteers and their roles.
9	Does your program include community engagement with the community? Please describe.
