Spay/Neuter grant project questions

1 Describe and quantify, to the extent possible, the cat overpopulation problem in your community using your organization's data and any other meaningful estimates. If you are a former grantee, please include information on the status of previously funded colonies and the impact.

2 What experience does your organization have running spay/neuter projects?

3 How many cats does your organization Trap-Neuter-Return in a year on average?

4 Please describe the current status of each of the colony(ies) you are applying for and any previous work done in this/these colonies in the past? Consider including details on spay/neuter status, colony terrain details, health status, colony growth.

5	How did you come to the estimate of unfixed colony cats? Please provide a response for each individual colony you are applying for.
6	Describe your relationship with each of the cat colony caretakers with whom you plan work to complete this project.
7	Describe what community collaborations, if any, exist and how this grant will foster the creation or growth of those collaborations.
8	Please explain your implementation plan for executing and completing this project successfully within the timelines of the grant program.
9	What system do you have in place to ensure that you will complete the number of surgeries listed above? Please outline staff/volunteers and their roles. Include how you will address challenges, like weather, veterinary access, accessibility to the cats or other trapping challenges, to achieve your target.

10 Does your program include community engagement and education on community cats?
Please describe.

I have read and understood the 2022 Community Animal Spay Neuter Grant Program Guide

Next Steps to Complete and Submit Your Application

1. Obtain Required Accompanying Documents:
 - Veterinary Letter: completed by veterinarian with committed rates, one letter per participating clinic. Template provided on the website.
 - Letters of support from Partners: If the project includes a partnership, a letter of support must be provided from the partner.
2. Submit Application:
 - Email completed application to spayneuter@spca.bc.ca

****IMPORTANT NOTE**** All applications must be received by mail or by email no later than December 15, 2021.
Any application received after this date will not be reviewed by the BC SPCA.
