Spay/Neuter grant project questions	
1	Describe and quantify, to the extent possible, the need for dog spay and neuter in your community using data and any other meaningful estimates.
2	Please describe any previous spay/neuter or preventative animal care work done in this community in the past?
3	How did you come to the estimate of unfixed dogs in your application?
4	Describe what community collaborations, if any, exist and how this grant will foster the creation or growth of those collaborations (including but not limited to veterinarians, other involved groups, animal caretakers, social services etc).

5	Please explain your implementation plan for executing and completing this project successfully within the timelines of the grant program.
6	What system do you have in place to ensure that you will complete the number of surgeries listed above? Please outline staff/volunteers and their roles.
